

# IPS

The Global Leader in  
Advanced Materials

## Our Brands

**ABBA Roller**  
*World Leader in Rubber and Chrome Rollers*  
1351 E Philadelphia St, Ontario, CA, USA  
+1 909 947 1244  
info@abbaroller.com

**ICON Aerospace Technology Ltd**  
*Engineered Sealing and Rubber Hose Solutions*  
Retford, Nottinghamshire, DN22 6HH, UK  
+44 1777 714 300  
info@iconaerotech.com

**IRP Medical**  
*Creative Solutions for Critical Problems*  
1035 Calle Amanecer, San Clemente, CA, USA  
+1 949 373 4513  
info@irpmedical.com

**Rubbercraft**  
*A History of Achievement. A Future of Innovation.*  
3701 Conant St, Long Beach, CA, USA  
+1 562 354 2800  
info@rubbercraft.com

**RMB Products**  
*Precision Engineered, Innovation Delivered.*  
1201 RMB Ct, Fountain, CO, USA  
+1 719 382 9300  
www.rmbproducts.com

**AkroFire**  
*Fire Protection & Thermal Management Solutions*  
9001 Rosehill Rd, Lenexa, KS, USA  
+1 913 888 7172  
sales@akrofire.com

**MAST Technologies**  
*Innovative Materials for Integrated Solutions*  
8380 Camino Santa Fe, San Diego, CA, USA  
+1 858 452 1700  
info@masttechnologies.com

**Northern Engineering Sheffield (NES)**  
*Dedicated to Advocating Elastomeric Technologies*  
Haigh Moor Drive, Brooklands Park, Sheffield, UK  
+44 0 1909 560 203  
sales@nes-ips.com

**Swift Textile Metalizing (STM)**  
*Proudly Serving the Next Generation of Defense*  
23 Britton Drive, Bloomfield, CT, USA  
+1 860 243 1122  
www.swift-textile.com

**Spira Manufacturing**  
*Advanced Shielding, Unmatched Reliability*  
650 Jessie St, San Fernando, CA, USA  
+1 818 764 8222  
www.spira-emi.com

## Shaping the Future

Integrated Polymer Solutions (IPS) focuses on providing technical solutions to critical problems through our portfolio of industry-leading brands in Engineered Elastomers, Signature Materials, and Biomedical Solutions. Whether you require specialized materials for engineering, signature design, or biomedical applications, IPS has the expertise and experience to deliver superior quality and performance.

## Our Mission

With our deep design engineering and manufacturing expertise, we enable our customers to provide quality OEM products efficiently to their customers.

# A Global Leader in Advanced Materials

## Industries Served

- Aerospace Architectural

Shielding Defense

Energy & Power

Food & Agriculture

Industrial & Manufacturing
- Medical

Robotics

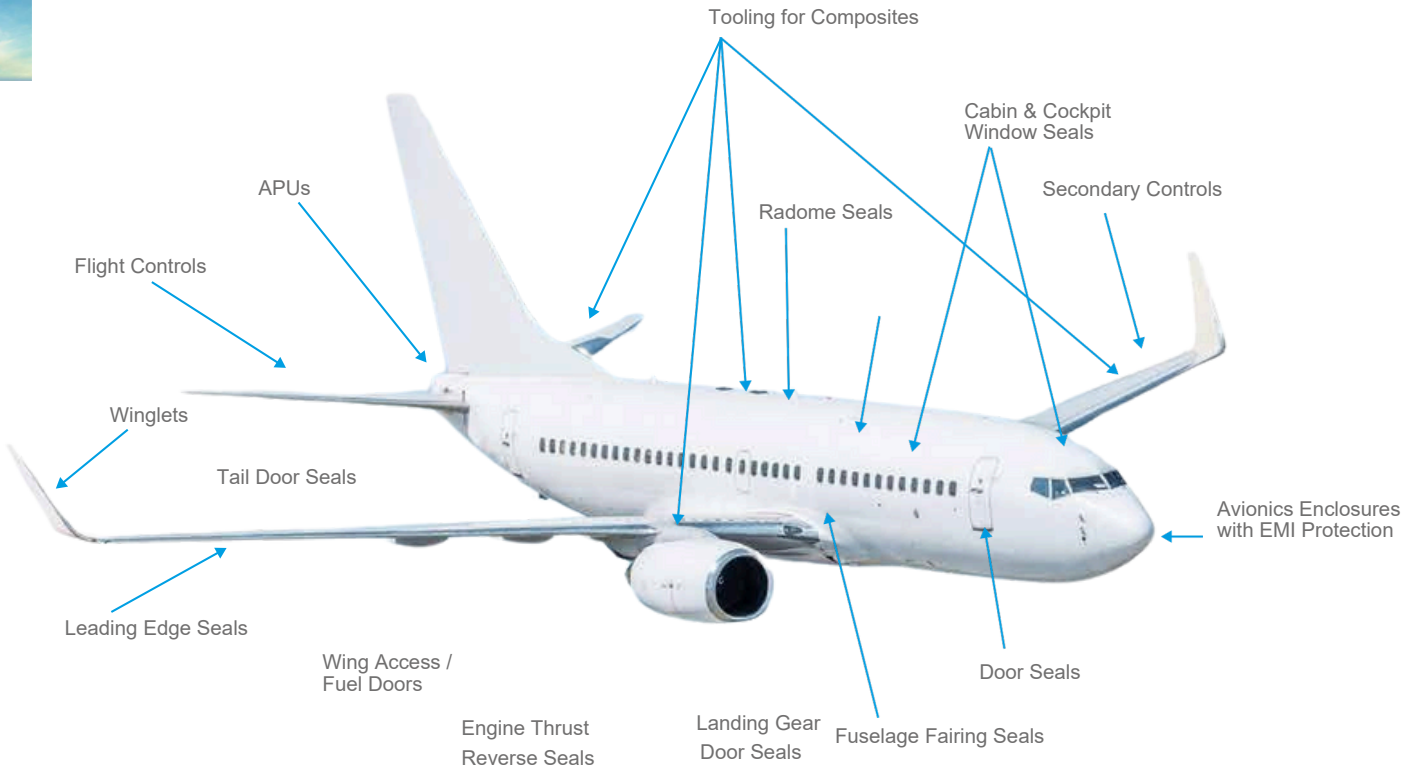

Semiconductor

Space

5G & Wireles

IPS designs, develops and manufactures precision engineered custom elastomeric and plastic parts, components and systems.

## IPS Capabilities

Build to Design, Build to Print, Material Development, and Testing

- Hoses & Ducts
- Signature Materials
- Static & Dynamic Sealing Solutions
- Ring Clamps, Line Blocks, & Grommets
- Elastomeric Tooling for Composite Manufacturing
